Selected for
Purity and Germination

MARK MEANS CO.
LEWISTON, IDAHO
Asparagus Roots. 7500 Asparagus, 1 oz. to 800 plants.... 1 lb.

This is the time to get that hay field or pasture started. If the acreage you are taking out of production happens to be poor soil or washes badly, plant it to sweet clover or some heavy rooted grass. Plan ahead—take advantage of this opportunity and secure some permanent good from this program.

Look through our catalogue—you will find Alfalfas, Clover and Grasses listed and described. If you have any questions write us and we will be glad to give you any information that we can.

Our Alfalfa seed is raised in the high mountain valleys and is dry land seed. These strains have proven the hardiest and will withstand the severe winters of our surrounding country. All lots are State Tested for purity and each sack is tagged showing the purity and germination, and other necessary information.

CLOVER SEED

We are located in the center of the Northern Idaho Clover producing districts. Our seed is raised on the high benches without irrigation. The winters are severe and the result is we have one sary information.

CLOVER SEED

We are located in the center of the Northern Idaho Clover producing districts. Our seed is raised on the high benches without irrigation. The winters are severe and the result is we have one of the hardiest strains of both Medium Red, Mammoth andAlsike Clovers produced in the country. Great care has been taken in getting these fields started to keep them free from noxious weeds and we select for our trade the cream of the crop. This is carefully cleaned in our modern cleaning plant and each lot is State Tested. A copy of this test is on each bag shipped out.

Clovers are being used more each year, especially in the dairying districts. Not only do they produce one of the most valuable crops, but being legumes they greatly enrich the soil.

On pages 4 and 5 you will find the different varieties described and priced.

PLANTING TABLE

We operate the Mountain Valley Seed Co., Arling, Idaho. In this district we raise garden and field peas, clovers, timothy and other grass seeds in an elevation of 4500 feet above the sea level. Seed raised under these conditions are very hardy and of high germination.
Established in 1900

Thirty-Six Years of Service

THROUGH the medium of this catalogue the Mark Means Company sends greetings to all customers old and new, as well as to prospective customers for the season of 1936.

For the past thirty-five years we have been giving the best seed service to the farmers and growers of the Northwest, also to the home gardener. The many unsolicited testimonials we receive each year from satisfied users of our seeds, are very much appreciated, and we are always glad to have them.

The number of our customers increases yearly, and we wish to thank all our friends for past favors, and trust we shall have the pleasure of receiving your orders again, not only this year but in the years to follow. When you buy our “Lewis-Clark” quality in either field or garden seeds, you are assured of receiving the best obtainable, and the most suitable for successful crops in your locality.

If you desire any information or advice regarding field or garden crops, please write us fully and the matter will have our prompt attention. When in Lewiston, call and see us and let us show you around the store, warehouse and up-to-date cleaning plant. Make our office your headquarters while in town.

Glance through this catalogue—NOW—don’t put it off until later—take order sheet from the back, write down your wants, no matter how small or how large, mail us the order and we will fill it with the utmost care.

FRESH VEGETABLES
From Your Own Garden—When You Want Them

One of the nicest features about your own garden is that the vegetables are there when you want them—fresh and full of flavor. When you raise your own, they seem to taste better.

BUY YOUR SEEDS EARLY

You will gain a distinct advantage by arranging for your seed supply, as orders must be filled carefully.

IMPORTANT

Owing to fluctuations in market prices it may be necessary to change some of the prices quoted herein during the season. Should prices change and orders be received at prices named, seeds will be sent equivalent to the money received, figuring the order at current prices.

HOW TO SHIP

Always state how you want heavy seed shipped, by freight, parcel post or express, and if your station is a prepay point, don't forget to add enough money to take care of the charges. Should you not receive the goods you ordered within a reasonable time, write us regarding the matter and we will gladly put a tracer after your shipment.

We deliver Free by parcel post, all Vegetable and Flower Seed unless otherwise stated. All other items are F. O. B. Lewiston, and postage, freight or express charges, if your station is a prepay station, must be added.
FIELD SEEDS

This year practically all field seed prices are much lower than they were last year, the seed-producing districts, with one or two exceptions, having had better growing and harvesting weather conditions.

Quality considered you will find our prices as low or lower than you can buy elsewhere. However, the initial cost of field seed is not the important factor to govern a purchase. What is more important to the farmer is that the seed he sows should be of high purity and germination, heavy, plump and matured. As one of our greatest agriculturists said recently, “Quality seeds of high purity and germination will provide excellent stands of hay and pasture if seeded correctly, but be sure you buy GOOD SEED.” Our Lewis-Clark quality seed, when costing a little more is really much cheaper in the end than grades sold at lower prices. With our many years of experience and knowledge of the seed business, also our up-to-date cleaning machinery, we are in a position to furnish seeds that will satisfy every requirement of the efficient farmer, at prices as low as possible consistent with quality.

If you are planning to seed a large acreage write us and we will gladly quote quantity prices.

The surest way of building up your land and assuring yourself a good profit is to plant alfalfas, clovers and grasses, and raise livestock. Also produce your own vegetables and flowers by planting a home garden.

Important.

The surest way of building up your land and assuring yourself a good profit is to plant alfalfas, clovers and grasses, and raise livestock. Also produce your own vegetables and flowers by planting a home garden.

The only native American grass that has become a cultivated crop. An erect Bunch Grass, and resistant to both drought and cold. An excellent hay grass, yielding 1 to 2 tons per acre. Can be grown successfully on dry, shallow, poor soils as well as on the better soils. At the price we can furnish you this seed, it will pay every dairymen to plant a few acres. Broadcast, 30 pounds per acre.

Domestic Rye Grass

This variety of Rye Grass is rapidly increasing in favor with dairymen in this district. Those who have used it state that it will carry more stock than any other grass, and will increase the milk flow. It is a rapid grower, winter hardy and makes a quick regrowth after mowing, and remains green much longer than other varieties. Can be grown successfully on dry, shallow, poor soils as well as on the better soils. At the price we can furnish you this seed, it will pay every dairymen to plant a few acres. Broadcast, 30 pounds per acre.

Slender Wheat or Bunch Grass

The only native American grass that has become a cultivated crop. An erect Bunch Grass, especially adapted to the Northwest. Very hardy, and resistant to both drought and cold. An excellent hay grass, yielding 1 to 2 tons per acre. Sometimes a second cutting is obtained. Sow about 20 lbs per acre.

Kentucky Blue Grass

Makes the best pasture of any grass. Starts early in the spring, and lasts until late in the fall.

Winter Blue Grass (Poa Bulbosa)

This is a perennial producing small bulblets instead of seeds. Is dormant during the entire summer, but as soon as the first rains come, the plants revive and send up a heavy, dense growth, furnishing excellent pasture throughout the late fall, winter and spring months. Seed should be planted in the fall or early winter (never in the spring). Sow from 20 to 25 lbs. per acre on well drained soil. This grass seeds freely, spreading from the bulblets produced beneath the surface of the soil as well as from those produced in the flower.

Reed Canary Grass

Reed Canary Grass has been in great demand the past two seasons, on account of its adaptability to different soil conditions. Though usually found in wet, marshy lake districts, it will also succeed on high, well drained land of rather low rainfall. It is a perennial and grows anywhere from 3 to 8 feet tall, and is palatable as hay and pasture. Heavy pasturing tends to thicken the stand, as stock will trample the stems and nodes into the soil, starting new growth. The hay yield is heavy, but the grass is more desirable as pasture. On well prepared seed beds where there is moisture enough for germination, sow 6 to 8 lbs. per acre.

Tall Meadow Oat Grass

The earliest grass of all for either pasture or hay, is especially adapted to our western country, being a quick grower, and of reaching 3 to 4 feet in June. Has a deep rooting system, which enables it to withstand a long drought, remaining green all seasons of the year. Cut during the blooming period for hay. Grows quickly after mowing, and will furnish a second and sometimes a third cutting. Sow 25 or 30 pounds per acre.

We Recommend the Lewis-Clark Quality Seed as the Best Obtainable.
Crested Wheat Grass

Crested wheat grass is a native of the Steppe region of European Russia and southwestern Siberia. It is a long-lived perennial that maintains productiveness for many years. Extensive tests have shown that it is highly adapted to the prairie provinces of western Canada, and has special merit for arid and semi-arid conditions. It is naturally suited to areas of limited rainfall, and has proven successful in districts with less than 13 inches of rainfall. The seed we offer was grown under supervision of County Agent, and bags tagged and sealed by him.

The root system is strongly developed. The dry weight of root fibre is more than double that of western rye grass and the main root mass extends to twice the depth. As a hay and pasture crop it is very palatable and nutritious. Should be seeded on well prepared soil at the rate of 10 lbs per acre.

Bromus Inermis or Brome Grass

A wonderful drought-resisting grass for the stock raiser. Stands at the head of all grasses as the most valuable for localities where conditions demand a drought-resistant plant.

A vigorous, hardy perennial, with strong, creeping root stalks; smooth, upright, leafy stems, 1 to 4 ft. high. In a few years it forms a tough sod, soon crowding out other grasses and weeds. It forms a permanent pasture, which starts very early in the spring and remains green until late in the fall. Without a doubt this is one of the best grasses to plant for a permanent pasture.

Seeding is done either in the spring or fall at the rate of 15 to 20 lbs. to the acre. Our seed is northern grown, hardy and thoroughly cleaned.

Sudan Grass

Sudan Grass is a tall, leafy, annual grass, producing a large tonnage of feed. As it originated in a hot, dry climate, it is naturally adapted to the dry conditions of our section. It does well on all soils except those that are wet and poorly drained.

Sudan is an annual, and as it matures quickly it is especially valuable as a catch crop. It produces a large tonnage of hay similar in quality to Millet or Timothy. When seeded for hay should be planted at the rate of 15 to 20 pounds to the acre with a grain drill. Should not be seeded until after all danger of frost is past.

Orchard Grass

Orchard Grass is equally good for pasture or hay. When mixed with Alfalfa makes high quality feed, especially fine for livestock. Extra good in pasture mixtures on account of its earliness and its ability to withstand drouth and close pasturing.

Red Top

A valuable grass for moist or even marshy lands and also on soils that are not rich enough for Timothy and other grasses and clovers. When mixed with Alsike at the rate of 6 pounds of Red Top and 4 pounds of Alsike to the acre, it makes a fine crop of hay or a good pasture. To make the best quality of hay it should be cut in full bloom.

Permanent Pasture or Meadow Mixture

Nothing produces a better meadow than a mixture of grasses specially selected for the purpose. These selections have been made after several years of thought and experience, and meadows sown with this grass-clover mixture will occupy the ground more closely, and will produce a better quality and larger yield of hay and subsequent fall pasturage, and will last ten or even twenty years. Some of the grasses used in this mixture mature early, others medium late, and one or the other will be at its best from early spring until snow covers the ground. Sow from 15 to 20 lbs. per acre.

Mixed Alfalfa, Clover, and Timothy

In cleaning the large amount of Timothy and Clover seed we handle, there is always a certain amount of mixed Alfalfa and Timothy taken out that cannot be separated. The mixture is the largest and plumpest seed of the lot and contains about 25% Alfalfa and 75% Timothy. Anyone who is going to plant Alfalfa and Timothy together, can save money by buying this seed. Per 100 lbs. $12.50.

**ALFALFA**

The most valuable of all legume crops

Alfalfa has done more to increase the value of farm lands than any other crop raised. It will thrive on any soil except a wet one, and not only produces a valuable hay crop of several tons to the acre but also enriches the soil on which it is grown.

It is of the utmost importance that the seed bed be carefully prepared. The ground should be finely pulverised but firm. As alfalfa is an expensive crop to sow, and since a good stand will last for a number of years, it is very important that none but the best seed be used. Cheap seed of inferior quality may result in a poor stand or be the cause of the farm becoming infested with noxious weeds.

Northwestern Grown Variegated Alfalfa

Under supervision of the U.S. Department of Agriculture, we are authorized to issue verified origin seed certificates for alfalfa seed, the locality of production of which has been verified by Federal seed inspectors.

It is generally conceded that only those strains of Alfalfa with variegated flowers are hardy in the northwest. Such strains are Grimm, Cossack, Ladak, etc. The seed we offer is from fields with variegated blooms, but for which the grower has no pedigree. The fact of its hardiness and variegated blossoms proves that it is one of, or a mixture of, the hardy strains.

Our seed is secured in the large producing dryland districts by men who carefully select only the best lots for our particular trade. When you order your seed from us you may rest assured that you are getting stock of the highest quality. Plant a field of our Lewis-Clark Quality, Tall Growing Alfalfa.

**Lewis-Clark**

Our seed is secured in the large producing dryland districts by men who carefully select only the best lots. Purity and germination tests are often as high or higher than certified seed, select the best lots. Purity and germination tests are often as high or higher than certified seed.

**Affidavit Grimm**

This is genuine Grimm alfalfa but the fields have not been registered. We have the grower’s affidavit that the seed is Grimm. We do not recommend you to plant this if you are going to raise seed, but for hay purposes will be just as good as the certified, and at a considerable saving. We buy only from reliable growers, investigate origin of seed, select the best lots. Purity and germination tests are often as high or higher than certified seed.

**Grimm, Cossack and Ladak Alfalfas**

Where killing of alfalfa by drought, frost and heaving is experienced, we recommend either of these varieties. They have double root systems, and the large crowns set low in the ground throwing out many more shoots than the so called common variety.

**Certified Grimm**

This seed is from fields that are state registered. The seed is officially inspected and graded and each sack is sealed by a state inspector at the time of cleaning.

**Ladak Alfalfa**

Ladak Alfalfa is a new, somewhat wilt-resistant variety introduced by the United States Department of Agriculture from Northern India. Tests in the Pacific Northwest and other northern states have shown it to be as hardy as Grimm or Cossack and a better yielder. It is especially well suited for seeding on thin, clay points. This variety is well adapted to areas infested with alfalfa wilt. Being a new variety the amount of seed grown in the United States is comparatively small and present supply limited. Our seed is grown under strict certification rules. 1 lb. 75c; 10 lbs. $700. Please write for prices larger quantities.

**Medium Red Clover**

Medium Red Clover is conceded to be the most important of the clovers. It is a valuable crop for either hay or pasture, and at the same time builds up the soil. It has been proven that it is a success on the uplands of this district, and is one of the most profitable crops raised. A large, profitable hay crop can also be raised, or the field can be clipped early and the second crop saved for seed.

Ladino Clover

Ladino is a tall-growing variety of white clover which has proven its great worth as a pasture clover. Here in Idaho it has yielded twice as much pasture as Blue Grass and grows tall enough to cut for hay. The clover that the dairyman has been looking for.

State Certified. Price: lb. $1.00, postpaid.

White Clover, Small Dutch

White Clover is especially valuable when mixed with Kentucky Blue Grass for either lawns or pastures.

Sweet Clover, White Blossom

Sweet Clover is rapidly coming into more popular use as its good qualities are becoming better known. The features that make Sweet Clover so valuable are its ability to thrive and produce good hay or a good pasture on poor soil, at the same time improve the soil on which it is growing.

It is being used more and more through this section of the country for pastures, and the use will be more general when its ability to withstand drought and to produce good green feed through the hot summer months is better known.

Almost every farm has a piece of land that is hard to farm, or the soil is too poor to raise a grain crop, that if seeded to Sweet Clover would produce a large amount of valuable feed, and at the same time build up the soil. White Blossom Sweet Clover is the popular and standard variety. It is a biennial, growing from 4 to 6 feet tall.

Gypsum or Land Plaster

In almost every section of the Northwest you can increase your yield of Alfalfa and Clovers from 25 to 76 per cent by applying Gypsum at the rate of 100 pounds to the acre each year. See Page 29 for Price

Closers Add Nitrogen to the Soil

But only when nodules containing bacteria are on the roots. These bacteria take the free nitrogen of the air and put it into such form as to make it available for plant use.

If these bacteria are not present, clovers can do but little toward enriching the soil. To make sure that your clover has plenty of bacteria inoculate the seed when sowing. (See page 29)

Spring Vetch

Spring Vetch is used for the same purpose as Hairy Vetch, but must be planted in the spring.

Winter or Hairy Vetch

This is a hardy, valuable crop for either forage or fertilizer. Thrives on nearly all soils and grows 4 to 5 feet long. Being a legume, it is a great soil-builder. Can be sown either in the spring or fall. When it is to be used for hay, it is best to sow some grain with it to act as a support. It can be cut twice, or used as pasture after the first crop has been taken off. Although an annual, it resows itself and will come up on the same ground for several years.

Wool and Mohair

We are buyers of Wool and Mohair—from one fleece to a carload. Send us a representative sample of your clip, stating the amount you have and the kind of sheep. We will quote you prices as soon as we have examined the sample.

WOOL SASH, 65c each. FLEECE TWINE, 35c per pound
Sorghums

Sorghums are used both for fodder and pasture. As a fodder crop they yield a large quantity of high quality feed. As a pasture crop for sheep or hogs it is unequaled; when grazed down it will quickly start up again, thus affording a large amount of pasture during the summer months. Our seed is Northern Grown, selected stock.

Lewis-Clark Quality
Amber Sugar Cane
White Sugar Cane
Fedorita

Field Peas

Field Peas are a very profitable crop, and will also build up the land. They are especially adapted to the much needed nitrogen to the soil. The clovers alone rank higher than peas in importance and feeding value. Legumes, if used for hay, or the peas threshed and used for feed. Next to corn, peas have a higher feeding value than any other grain. Seed is sold in 1 lbs. All our peas are Northern grown, selected stock.

Soy Beans

Soy Beans can be grown in any section where corn can be raised. The Extension Department of the University of Idaho have been running a large number of field tests for the last two years, using all the popular varieties. From these tests they have selected the following varieties. Minsoy (Early), Ito San (Medium), Manchu (Late).

Next to corn, peas have a higher feeding value than any other grain. Seed is sold in 1 lbs. All our peas are Northern grown, selected stock.

Oats

Oats are grown in the northern part of the state on new land, which has been properly prepared for the purpose. The seed is carefully selected and cleansed, being free from wild oats.

Wheat

Wheat is specially adapted to the section where corn can be raised. It matures very quickly, is most dependable crops in the West Matures very quickly, is most dependable crops in the West. There is a short crop this season and the yield almost double. Also used extensively for seed purposes.

Dwarf Essex Rape

Dwarf Essex Rape is as easily grown and handled as either oats or wheat, and is a very desirable crop on account of its earliness and adaptability to the many conditions to which it is subjected. Dwarf Essex Rape is a rapid-growing variety of rape which is ready for use six or eight weeks after planting. Recommended highly for sheep and hogs. 1 lb. 10c; 10 lbs. 85c.

FIELD CORN

North Idaho Grown

Our corn is carefully selected and graded, and is thoroughly acclimatized for seed planting.

Wheat

Recleaned, Selected Stock
Lewis-Clark Quality—Marquis, Certified Jenkins Club, Blue Stem, Early Baart. Write for prices.

Oats

Recleaned, Selected Stock
Our oats are grown in the northern part of the state on new land, which has been properly prepared for the purpose. The seed is carefully selected and cleansed, being free from wild oats.

Lewis-Clark Quality—"Markton" Write for prices.

Sunflowers for Silage

Sunflowers for Silage in the last few years Sunflowers have been grown extensively for ensilage. The yield varies from 10 tons on dry land to 40 tons on rich bottom land under irrigation. In feeding value it ranks close to corn ensilage. The varieties giving best results in this district is the Mammoth Russian.

Dwarf Essex Rape

One of the best forage plants. Produces a large amount of valuable pasture which is ready for use six or eight weeks after planting. Recommended highly for sheep and hogs. 1 lb. 10c; 10 lbs. 85c.

Soy Beans

Soy Beans can be grown in any section where corn can be raised. The Extension Department of the University of Idaho have been running a large number of field tests for the last two years, using all the popular varieties. From these tests they have selected the following varieties. Minsoy (Early), Ito San (Medium), Manchu (Late).

High altitudes, for hay and pasture, Manchu variety. For 1500 feet to 2000 feet altitude, for hay and pasture, all three varieties. For seed production, Minsoy and Ito San. Under 1500 feet, all three varieties. Seed bed should be well prepared and soil warm before planting. Do not plant over 2 inches deep. Inoculation is necessary; it promotes growth and hastens maturity.

Western Flax Seed

Western Flax Seed should be well prepared and soil warm before planting. Do not plant over 2 inches deep. Inoculation is necessary; it promotes growth and hastens maturity.

Seed Grain

BEARDLESS SPRING RYE. Spring Rye is a very important and profitable crop. It is used for replacing winter grain that has failed, or planted later than usual. Rye is a rapid-growing variety of rye which is grown successfully in our Western country, and is one of the best crops for green feed. Rye beards and threshes out the same as wheat. Recleaned, selected stock.

Oats

Our oats are grown in the northern part of the state on new land, which has been properly prepared for the purpose. The seed is carefully selected and cleansed, being free from wild oats.

Lewis-Clark Quality—"Markton" Write for prices.

From these tests they have selected the following varieties. Minsoy (Early), Ito San (Medium), Manchu (Late).

High altitudes, for hay and pasture, Manchu variety. For 1500 feet to 2000 feet altitude, for hay and pasture, all three varieties. For seed production, Minsoy and Ito San. Under 1500 feet, all three varieties. Seed bed should be well prepared and soil warm before planting. Do not plant over 2 inches deep. Inoculation is necessary; it promotes growth and hastens maturity.

Western Flax Seed

Western Flax Seed should be well prepared and soil warm before planting. Do not plant over 2 inches deep. Inoculation is necessary; it promotes growth and hastens maturity.

Millet

Millet is especially adapted to a section with a small amount of rainfall and hot weather. Produces an abundance of valuable pasture which is ready for use six or eight weeks after planting. Recommended highly for sheep and hogs. 1 lb. 10c; 10 lbs. 85c.
Asparagus

One of the early spring vegetables which can be produced very easily and cheaply and which is a profitable market crop. A bed 15x50 feet, requiring about one hundred plants, should give a sufficient supply to the average family. One ounce of seed will produce eight hundred or more plants. Sow in drills and thin to three inches in a row. At the end of the first year transplant into permanent beds, carefully prepared, and cultivate to a depth of 24 inches; manure deeply, using old manure and bone meal. A bed five feet wide will carry three rows. The plants should be spaced 18 inches apart in a row.

Martha Washington

An early maturing variety, rust resistant and a large producer. Price: Pkt. 5c; oz. 15c; ¼ lb. 50c; ½ lb. 85c; lb. $1.50.

Palmetto

Extra early and uniform large stalks. Very popular with shippers. The shoots are a light green, slightly tinted with pink. Price: Pkt. 5c; oz. 15c; ¼ lb. 35c; ½ lb. 60c; lb. $1.00.—For Roots See Page 19.

Table Beets

Sow seed as early in the spring as ground can be worked. Can be sown in rows 15 to 18 in. apart, and about 1½ in. deep. It is advisable to soak seed in water for 24 hours before planting, 1 oz. to 50 ft. drill; 5 to 6 lbs. per acre.

Early Wonder

Valuable to gardeners as a first early variety. Used also for fall planting. Tops medium small, erect. Roots semi-globular, blood red, with small tap roots. Tender and of good quality. A few days earlier than Egyptian. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; 1 lb. 90c.

Extra Early Egyptian

Fine for forcing an early crop; about ten days earlier than the Early Blood. Makes fine, smooth, almost flat, very dark red beets; firm, crisp and tender. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; 1 lb. 90c.

Early Blood Turnip

Extra early, and somewhat turnip-shaped, smooth roots. The flesh is a fine deep blood red. The foliage is small. Popular for market and the home garden. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; 1 lb. 90c.

Detroit Dark Red

A fine beet for bunching for the market; tops exceptionally small and uniformly upright. The roots are perfect turnip shape with small tap roots. One of the deepest red beets. Quality is of the finest; sweet and tender. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; 1 lb. 90c.

Crimson Globe

Fine form, with smooth skin. The tender flesh is deep purplish crimson, slightly zoned; foliage small, of a rich bronze-purple. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; 1 lb. 90c.

SWISS CHARD

Grown for its large, tender, succulent leaves, which make the most delicious greens, or the thick, fleshy stalks, which are cooked and served like asparagus. The seed is planted in the spring the same as beets, and tops are cut off as wanted during the summer, fall and following spring. Price: Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 55c; 1 lb. 90c.

Stock Beets

Stock beets and mangels are high in food value and should be grown by everyone having livestock. They also make excellent feed for chickens. It is not unusual to produce 15 to 25 tons to the acre. Plant sufficient so that the milch cows can get their share, and you will increase the flow considerably.

Mammoth Long Red

The best long red mangel; is very productive, often yielding 50 tons to the acre. It grows well above ground and is easily harvested. Price: Pkg. 5c; ¼ lb. 15c; ½ lb. 30c; 1 lb. 50c; 10 lbs. $4.50.
Stock Beets—Continued

Giant Half Sugar One of the most valuable for feeding stock. It unites the large size of the mangel with the great feeding value of the sugar beet. Price: Pkg. 5c; ¼ lb. 15c; ½ lb. 30c; lb. 50c; 10 lbs. $4.50.

Golden Tankard Dairy farmers state they are able to obtain higher prices for milk when feeding cows on “Golden Tankard.” Sheep thrive on it. “Golden Tankard” is rich, deep yellow throughout.

Dwarf or Bush Beans Young bean plants are easily damaged or killed by freezing. Do not plant seed until danger of frost is past. One pound of seed is sufficient for 100 foot row, planted about 2 feet apart, 5 or 6 inches apart in the rows.

Wax Podded Varieties

Imp. Golden Wax Very popular with both the home garden and for market. The pods are of medium length, broad, flat, golden yellow, very fleshy, wax-like and stringless. The plants are erect, compact, and produce early and abundantly. The seeds are medium size, oval, white mottled with red. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Brittle Wax or Round Pod Kidney Wax. Considered by many the best wax bush bean. The bushes are hardy, prolific and early, bearing a tremendous crop of attractive beans. The pods are so fleshy that they are round in cross section and are about 7 inches long and stringless. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Davis White Wax A prolific early white-seeded variety. Long pods, light yellow, crisp and tender. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Green Podded Varieties

Burpee’s Stringless A very early, hardy, green podded bean of excellent quality. The pods are round, straight, about 5 inches long, very meaty and entirely stringless. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Giant Stringless Pods of this variety are a little longer, straighter and more slender than Burpee Stringless and are very prolific. While it is a favorite variety for canning, it is highly recommended for market gardeners. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Bountiful One of the best for market and home gardens. The light green pods are always tender. The earliest of the flat stringless beans, producing large pods containing 6 or 7 kidney shaped beans. Vines 16 inches high. Seed light yellow with brown tinge about eye. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Burpee’s Bush Lima The most generally grown bush lima bean, growing about 20 inches high and bearing exceptionally large pods and beans of fine quality. Medium early. Price: Pkt. 5c; ¼ lb. 15c; ½ lb. 20c; lb. 35c; 5 lbs. $1.50.

Beans are best when they are picked fresh.

Green and Wax Podded Pole Varieties

Kentucky Wonder A vigorous climber; very prolific, bearing in clusters extremely long and very fleshy succulent pods: flat, thick and remarkably tender. A first-class pole variety. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Kentucky Wonder Wax The long, round, light golden colored pods are stringless, thicker and broader than the green variety. Beans closely set in pods. Seeds are dark brown, flattened and have a shriveled appearance. Price: Pkg. 5c; ¼ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Stock Carrots

Stock carrots are one of the most valuable stock foods and very heavy yielders. Recommended for horses and colts, as well as for cattle and chickens.

Large Yellow Belgian one-third which grows above ground. Easily pulled and makes excellent stock food. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 75c; 5 lbs. $3.50.

Large White Belgian Extensively grown for stock feeding, very productive. Grows so much above the ground that the crop can be pulled by hand. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 75c; 5 lbs. $3.50.

All Prices on This Page Are Postpaid

Mix Pleasure with Economy—Plant a Garden
Carrots

**CULTURE.** Carrots will do well in any good, well prepared soil. May be sown as early as the ground can be worked. Sow in rows 15 inches apart, and when about 3 inches high, thin to about 5 inches in the row. Use 1 oz. to 100 ft. drill; 8 lbs. per acre.

**Oxheart**
- **72 Days**
- A thick carrot, five or six inches long and very blunt at the lower extremity. It grows very rapidly and the root attains a weight of more than a pound. It is tender and of good flavor. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

**Half Long Chantenay**
- **72 Days**
- One of the best carrots for all purposes. Medium early, about 6 inches long, blunt ended, smooth, fine grained, sweet and sugary. An excellent table carrot and a heavy yielder. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

**Nantes or Coreless**
- **70 Days**
- The roots are cylindrical, smooth and of a bright orange color. The flesh is orange, becoming yellow in the center, but very tender throughout and almost coreless. This variety is of the finest quality and is one of the most symmetrical and handsome of the medium-sized sorts. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

**Imperator**
- **76 Days**
- Attractive orange colored roots 7 to 8 inches long with shoulders 2 inches in diameter.

**Danver’s Half Long**
- **75 Days**
- Grown largely on account of its productivity and adaptability to all classes of soil. Tops, medium size, coarsely divided. The smooth, handsome roots are of medium length, tapering uniformly to a blunt point; flesh sweet, crisp, tender; deep orange in color. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

**Cauliflower**

**CAULIFLOWER** will succeed on soil that will produce cabbage, but best results will be obtained on rich loam with an abundance of water. Sow early varieties in hot beds in February or March. Later varieties sow in a well prepared bed in May. When large enough transplant in rows 1/2 feet apart and 18 inches apart in the rows.

**“Mt. Hood” Snowball**
- Without doubt the best strain of “Early Snowball” for the gardener to use. Earlier and produces large, solid, white heads. Recommended for either early or late planting. Price: Pkt. 25c; 1/4 oz. 75c; oz. $1.75; 1/4 lb. $8.00.

**Early Snowball**
- This is the common strain of imported “Early Snowball” and while it will not give as good results as the “Mt. Hood” it will produce a good crop. Price: Pkt. 10c; 1/4 oz. 50c; oz. $1.75; 1/4 lb. $5.50.

**Danish—Dry Weather**
- Produces large, solid, pure white heads. Is especially adapted for growing in dry locations where other varieties would fail. Pkt. 10c; oz. $1.75.

**Autumn Giant**
- Produces large, compact, white heads, well protected by foliage. Pkt. 10c; oz. 60c.

For Plants See Page 19.

**Celery**

**CELERIAC—Turnip Rooted Celery**
- The large root is the edible portion, and is highly valued for flavoring soups or boiling with stews and other dishes. As seed takes three to four weeks to germinate, keep the sowing moist until the young seedlings appear, and when large enough to handle, transplant seedlings to stand 8 to 10 inches apart each way. Price: Pkg. 10c; oz. 25c; 1/4 lb. 85c.

ALL PRICES ON THIS PAGE ARE POSTPAID

Mix Pleasure with Economy—Plant a Garden
Cabbage

One ounce for 2000 plants; ½ lb. of seed per acre.

**CABBAGE CULTURE.** For early plants sow seed in January or February under glass, hardened off gradually by exposing to outside air, and as early as the ground is in good condition transplant to rows 3 feet apart and 18 inches apart in row. For late plants the seed may be sown in the field.

**Early Flat Dutch**
70 Days' which they resemble in appearance. Price: Pkg. 5c; oz. 15c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

**Early Winningstadt**
85 Days
½ lb. 60c; ½ lb. $1.10; lb. $2.00.

**Danish Ballhead**
100 Days
Select Short-Stem. Our strain of short-stem Ballhead is imported direct from Denmark. The fine ribbed leaves are so densely packed together for water or air to start decay and the firm heads are famed for their superior excellence and keeping qualities. Matures late; when cut shows a fine, hard, snowy white, solid head. The best in its class. Price: Pkg. 5c; oz. 15c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.00.

**Golden Acre**
65 Days
A new variety, seven days ahead of the Jersey Wakefield. Heads are round, firm, and exceptionally fine texture, heavy mid-ribs being entirely absent. Average weight is about 4 pounds to the head and have only a few outer leaves. Price: Pkg. 5c; oz. 20c; ¼ lb. 75c; ½ lb. $1.40; lb. $2.50.

**Large Red Drumhead or Red Dutch**
130 Days
A well-known standard. Heads of large size, slightly rounded, 7 to 8 inches in diameter. Price: Pkg. 5c; oz. 15c; ¼ lb. 60c; ½ lb. $1.10; lb. $2.

**Chinese or Celery Cabbage—Pe Tsai**
75 Days
A delicious new vegetable. The plants develop quickly, forming large, tightly folded heads, well blanched in the heart. Chinese Cabbage can be served as a salad or cole slaw; when boiled is more tender and palatable than ordinary cabbage. Price: Pkg. 10c; oz. 15c; ¼ lb. 60c.

**Cucumbers**

**West India Gherkin**
60 Days
A very small, oval, prickly sort, distinct from all others. It is grown for pickles only and must be used when young. Price: Pkg. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. $1.25.

**The “Davis Perfect”**
65 Days
The “Davis Perfect” is of perfect form, large size and of finest color; is crisp, delicious, and almost seedless. This fine variety comes from the originator of the Davis Wax Bean is one of the most valuable varieties for home or market. Price: Pkg. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. $1.25.

**Early White Spine**
60 Days
One of the most popular early cucumbers. Price: Pkg. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. $1.25.

**Boston Pickling**
55 Days
A very productive variety; extensively grown for pickles. The fruits are bright green, of medium size, smooth and symmetrical. The flesh is crisp and tender. Price: Pkg. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. $1.25.

**M.M. Special**
63 Days
An outstanding variety for the shipper and market gardener. Holds its color a long time. Very dark green color, slightly tapered at each end. Price: Pkg. 5c; oz. 15c; ¼ lb. 45c; ½ lb. 70c; lb. $1.25.

**CULTURE.** Cucumbers need a warm, rich soil and should not be planted in the open ground until danger of frost is over. Plant in hills 4 feet apart each way, thinning to 3 or 4 of the strongest plants. One ounce will plant 50 hills; 2 pounds to the acre.
Sweet Corn

CULTURE. Do not plant until all danger of frost is past. Plant in hills 18 inches apart, rows 3 feet apart. All suckers should be removed. Have Green Corn throughout the season by planting a variety. Plant in the following order: Early Portland Market, Golden Bantam, Stowell's Evergreen.

Golden Sunshine
74 Days
5 lbs. $1.00.

Golden Evergreen
100 Days
5 lbs. $1.00.

Golden Bantam
80 Days
About 6 inches long and at least two ears borne on each stalk. Can be planted earlier than other sugar corn. Price: ½ lb. 10c; ½ lb. 15c; lb. 25c;

Early Minnesota
75 Days

Country Gentleman
93 Days
the cob small, making much more than other sugar corn. Price: ¼ lb. 10c; ¼ lb. 15c; lb. 25c;

Stowell's Evergreen
95 Days
½ lb. 10c; ½ lb. 15c; lb. 25c; 5 lbs. $1.00.

Golden Giant
88 Days
Grains. Corn sweet and of very fine flavor and becoming very popular. Price: ¼ lb. 10c; ¼ lb. 15c; lb. 25c; 5 lbs. $1.00.

TREAT YOUR CORN WITH SEMESAN JR.

Chicken Lettuce
This variety grows to a height of 4 or 5 feet and is similar to kale. It does not head and is not used for table purposes. The wonderful leaf growth makes it ideal for chickens and rabbit green feed. Price: Pkg. 5c; oz. 15c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.

New York or Wonderful

Chicken Lettuce
60 Days
Special No. 12
A very crisp and tender forcing variety. Price: Pkg. 5c; oz. 15c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.

Black Seeded Simpson
65 Days

Grand Rapids
Among the curled lettuce there is no better for forcing, and it does splendidly outdoors if sown in the fall or early spring. Does not form heads, but large, compact clusters crimped around the edges; crisp and tender. One of the easiest to grow under glass. Price: Pkg. 5c; oz. 15c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.

Hanson
65 Days
Heat resistant. Price: Pkg. 5c; oz. 15c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.

Prizehead
A large, clustering, non-heading lettuce, easy to grow and an excellent variety for the home garden, but not recommended for market, as it is too tender to stand shipping and handling. The leaves are bright green, tinged with red: crisp, tender and sweet. Price: Pkg. 5c; oz. 15c; ½ lb. 35c; ½ lb. 60c; lb. $1.00.

We make a specialty of supplying seed to the Market Gardeners and make every effort to handle only the very best strains obtainable. We do not claim to compete with houses whose main idea is to sell at a low price regardless of quality. In such cases the seed is not cheap but very dear at any price. The first cost of good seed is small compared with the time and labor necessary to raise a crop.

ALL PRICES ON THIS PAGE ARE POSTPAID

The Lettuce you buy is never as crisp as that cut fresh from your own garden
Watermelons

**CULTURE.** Watermelons do best on light, well-drained soils, but give good results on any rich garden soil that is well cultivated. One outline of seed will fill 36 hills; 8 to 4 pounds to an acre.

**Halbert Honey**  
82 Days The introducer describes this as equal in flavor and as handsome as the Kleckley's Sweets and much more productive. A long, early melon, with dark, rich, glossy green rind, crimson flesh and sweetness that is unsurpassed. Fine for home use and home market, but is too thin and brittle to stand shipment. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Tom Watson**  
95 Days One of the most popular shipping melons grown. Large and mottled, flesh red. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Cole's Early**  
Very early. A good variety for either the home garden or for market. Flesh deep red. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Georgia Rattlesnake**  
Very large. Flesh dark red, of excellent flavor. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Klondike**  
85 Days One of the sweetest and most prolific melons on the market. Seeds are about half the size of others. Flesh deep red, skin dark green. As the seeds are so small, 1 pound will go as far as 2 of most other varieties. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Phinney's Early**  
An early, medium-sized variety, with pink flesh, sweet and delicious. One of the best for home use. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Golden Honey**  
A desirable yellow meated variety. Thin rind, golden yellow flesh, remarkably tender and sweet. First choice with many customers for home use. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Ice Cream or Peerless**  
The excellent quality of this very early melon is undoubted. Medium size, thin rind, bright, scarlet flesh. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Winter Queen**  
Sometimes called the "Christmas" watermelon, as it ripens about the first of September and can be kept until Christmas without losing any of its quality. Best adapted to sandy soils, and produces good sized melons, light green to ivory in color, and almost round in shape. Bright pink flesh, very solid, crisp and juicy. Claimed by many to be sweeter than any other melon grown. Don't fail to plant some of this variety. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Kleckley's Sweets or Monte Cristo**  
A splendid sort for home use or near markets. Vine vigorous and productive; fruit of a medium size, oval; color of meat dark salmon. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Citron**  
Grown for preserving and pickling. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

Muskmelons or Cantaloupes

**CULTURE.** After all danger of frost is past, plant in hills 4 to 6 feet apart. Do not plant too deep; 1 ounce to 80 hills; 2 to 3 pounds to an acre.

**Burrell's Gem**  
The fruits are 6 to 7 inches long by 4 ½ to 5 inches in diameter, rather sharply sloping at the ends. Well ribbed and covered with a fine grayish netting. The skin is rich dark green, contrasting finely with the deep orange-salmon flesh; sweet and tender. The flesh is thick and firm, ripening close to the skin. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. $1.00.

**Edwards Perfecto**  
A very superior type of the Rocky Ford melon, having a deep tinted salmon flesh and seedless. The skin is medium size, yellowish green. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Banana**  
A long, salmon fleshed variety of good flavor, growing about 15 inches long. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; 100 Days lb. $1.00.

**Hearts of Gold**  
Shape slightly oblong, medium size, skin thin, flesh a rich deep orange color, fine grained and of remarkable sweetness and spicy flavor. Very small seed cavity. No other melon equals it for shipping purposes. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. $1.25.

**Extra Early Hackensack**  
This is a selection of the popular Hackensack, ripening fully 10 days earlier. Melons of good size, heavily ribbed and netted, thick, light green flesh of fine flavor. Quickly taking the place of the ordinary Hackensack. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. $1.00.

**Salmon Tinted Pollock**  
Meat of fine texture, deep salmon color. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. $1.00.

**Rocky Ford**  
No other cantaloupe finds such ready sale in the large markets; it is always in demand at good prices. Very uniform in size and quality, thickly netted, distinctly ribbed and firm flesh. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. $1.00.

**Early Osage**  
90 Days  
A fine melon for near-by markets. Large and uniform in size. Flesh is orange salmon colored, fine grained, firm, spicy and sweet. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. $1.00.

**Hearts of Gold**
MUSKMELONS or CANTALOUPES (Continued)

Hale's Best  
85 Days  
A fine, early shipping variety of excellent quality. Used extensively in the Imperial Valley. Melons are oval in shape, 8 inches long by 4 1/2 inches in diameter, heavily netted. Flesh thick, of deep salmon color. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

Honey Dew  
112 Days  
Fruits with smooth, almost white rind, measuring about 6 inches in diameter by 7 to 8 inches long. The green flesh is thick and is of a peculiar sweet flavor. To have the melons in the best condition, gather as soon as they slip from the vine and store in a cool place for two or three days. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

Casaba  
A large, green-fleshed melon. A good yielder and keeper. Price: Pkg. 5c; oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

New Golden Honey Dew  
110 Days  
Price: Pkg. 5c; oz. 15c; 1/4 lb. 45c; 1/2 lb. 85c; lb. $1.50.

Early Waters Netted Gem  
oz. 15c; 1/4 lb. 35c; 1/2 lb. 60c; lb. $1.00.

Onion Seed

CULTURE. On land that is thoroughly plowed, disked and harrowed, sow onion seed in rows 18 inches apart, using 2 to 4 pounds to the acre. Planting should be done as early as the ground can be properly worked.

Yellow Globe Danvers  
A very popular variety, especially for market. It is globular in form; very solid and one of the best shippers. The skin is brownish yellow and the flesh is fine grained, creamy white, crisp, mild and of excellent flavor. One of the best main crop. Price: Pkg. 5c; oz. 25c; 1/4 lb. 65c; 1/2 lb. $1.50; lb. $2.25.

Sweet Spanish  
120 Days  
Price: Pkg. 5c; oz. 25c; 1/4 lb. 65c; 1/2 lb. $1.50; lb. $2.25.

White Portugal or Silver Skin  
A standard variety; one of the most productive kinds, even in poor soil. Its good keeping quality renders it one of the best for shipping. Price: Pkg. 8c; oz. 20c; 1/4 lb. 55c; 1/2 lb. $1.00; lb. $1.90.

Crystal Wax  
(WHITE BERMUDA). A medium sized pure waxy white onion, and one of the mildest grown. The seed is imported from Teneriffe, Canary Islands, and has always given very satisfactory results. Price: Pkg. 5c; oz. 30c; 1/4 lb. $1.00; 1/2 lb. $1.85; lb. $3.50.

White Pearl or Queen  
95 Days  
The best of all for small pickles and the earliest maturing onion in cultivation. The bulbs are small, pure white and uniform in size and shape. Price: Pkg. 5c; oz. 25c; 1/4 lb. 75c; 1/2 lb. $1.35; lb. $5.50.

Yellow Bermuda  
120 Days  
1/2 lb. $1.60; lb. $3.00.

Bottom Yellow Danvers  
1 lb. 2 lbs.  
$0.15 $0.25

Top Sets  
$0.15

Garlic Sets  
$0.25

Onion Sets

BERMUDA ONION PLANTS

The new way of raising the large, mild, sweet onion. These onions are not grown from sets but from plants. You can raise them in your own garden and get as good onions as those that are shipped in from Texas. These are the same kind of plants that the Texas growers are using. They grow fast, and can be used for green onions or you can allow them to mature. The plants are field grown and are well hardened and will stand shipping and transplanting. A large number of our growers had fine success with them last year. They come packed 100 in a bunch. Price postpaid: 45c per 200; $1.00 per 500; $1.85 per 1000; $8.00 per 2000.

Okra or Gumbo

CULTURE. Seed can be planted from middle of March until the latter part of August. 1 oz. of seed to 50 foot row. This vegetable produces long and nutritious pods which when young are used in soups and stews, adding a rich flavor.

White Velvet  
Pods round, smooth and fine from seams. Fine flavor. Pkg. 5c; oz. 10c; 1/4 lb. 25c.

ALL PRICES ON THIS PAGE ARE POSTPAID
Garden Peas

Peas should have a large place in every home garden. By careful selection of varieties and frequent plantings you may have a continuous crop throughout most of the season.

We suggest:
Early—Alaska, Blue Bantam, Laxtonian, American Wonder, Little Marvel.
Second Early—Gradus, Little Gem, Nott's Excelsior, Stratagem, Admiral.
Late—Telephone, Everbearing.

Alaska or Earliest of All

60 Days

A well-known, smooth seeded, extra early variety, extensively grown for use by canners. The vines are strong and vigorous, 2 feet high and of light green color. The pods are about 3 inches long, and are well filled with round, blue peas, slightly pitted. Price: Pkg. 5c; 1/2 lb. 10c; 1/2 lb. 15c; 1 lb. 25c; 10 lbs. $2.10.

Gradus or Prosperity

65 Days

A splendid large podded variety, Laxtonian type. Height 14 inches. A large pro¬
ducer of fine flavored peas. Price: Pkg. 5c; 1/4 lb. 10c; 1/2 lb. 15c; lb. 25c; 10 lbs. $1.90.

Nott's Excelsior

62 Days

A particularly good extra early dwarf wrinkled pea, coming in only a few days after the extra early smooth kinds. Pods average 3 inches long, and are full of large peas of unusually sweet flavor. One foot high, of vigorous constitution and great yielding power. Price: Pkg. 5c; 1/4 lb. 10c; 1/2 lb. 15c; lb. 25c; 10 lbs. $2.10.

American Wonder

61 Days

Very early and of dwarf, compact growth, about 12 inches high. Very popular with those who object to making a support for the vines. The pods are about 3 inches long, straight, round, blunt at the ends, and light green. The peas are of medium size, wrinkled, and of fine quality. Price: Pkg. 5c; 1/4 lb. 10c; 1/2 lb. 15c; lb. 25c; 10 lbs. $2.10.

Dwarf Telephone

79 Days

A large podded second early variety. A large yieder. Price: Pkg. 5c; 1/4 lb. 10c; 1/2 lb. 15c; lb. 25c; 10 lbs. $2.10.

Improved Stratagem

79 Days

One of the best of the large podded peas; the pods are of immense size, filled with large, dark green, wrinkled peas of the finest quality; vine of medium height, but very stocky, with very broad, light green leaves, and bearing an abundance of large, handsome pods. Price: Pkg. 5c; 1/4 lb. 10c; 1/2 lb. 15c; lb. 25c; 10 lbs. $2.10.

Everbearing

76 Days

The vines attain a height of 2 1/2 to 3 feet; foliage large; the pods will average 3 to 4 inches in length, each pod producing 6 to 8 wrinkled peas. These peas are very large, being half an inch and over in diameter, and in quality unsurpassed. For a continuance of bearing this variety is unexcelled. Price: Pkg. 5c; 1/4 lb. 10c; 1/2 lb. 15c; lb. 25c; 10 lbs. $3.00.

Dwarf Grey Sugar

68 Days

Luscious in flavor. An edible pod pea growing about 2 feet in height. Pods very delicious when cooked same as green or wax beans. Price: Pkg. 5c; 1/4 lb. 15c; 1/2 lb. 20c; lb. 35c; 10 lbs. $3.00.

Parsnips

PARSNIP CULTURE. As Parsnip seed germinates very slowly, sow as early in the spring as possible in rows 18 inches apart. Thin to 3 or 4 inches. The roots are improved by freezing.

Hollow Crown or Long White

Roots very long, white, smooth, tender, sugary, and most excellent flavor. Very hardy; will keep through the winter without protection. Price: Pkg. 5c; oz. 10c; 1/2 lb. 25c; 1/2 lb. 45c; lb. 75c.

ALL PRICES ON THIS PAGE ARE POSTPAID
Peppers

One Ounce to 1500 Plants

**CULTURE.** Sow early in hot beds. When 3 to 4 inches tall transplant to well cultivated and highly fertilized soil.

**Chinese Giant**
- Very mild in flavor and a favorite for the home garden. Rich, deep green when immature and bright scarlet red when ripe. Flesh thick, mild and sweet. (80 Days)

**Ruby King**
- An ideal pepper for either the home or market gardener. Fruit grows to a size of 4 to 5 inches in length and 3 to 3 1/2 inches in diameter. Color, dark green when young, turning to a bright red. Flesh thick, crisp and tender. (69 Days)

**Large Bell or Bull Nose**
- Large, mild, thick fleshed variety. Fine for stuffing. (69 Days)

**Cayenne**
- Pods small, long and tapering. Coral red when ripe, very hot and strong. Best kind for seasoning pickles. (70 Days)

**Chili**
- Pods small and pointed; bright scarlet; very pungent when ripe. Prices: 82 Days Pkg. 5c; oz. 35c. All Varieties.

**ALL PEPPERS POSTPAID — FOR PLANTS SEE PAGE 19**

Seed Potatoes (Non-Irrigated)

- Our seed potatoes are raised under our personal supervision on the non-irrigated lands of the Palouse and Camas Prairie. Selected seed is used and the fields thoroughly rogued and only the strong healthy plants left to mature.

**Idaho Early Irish Cobbler**
- A splendid extra early variety, and the best for early market. The tubers are handsome, almost round, larger than most other early potatoes, and uniform in size and shape. Prolific yielders. The skin is creamy white.

**Bliss Triumph**
- One of the earliest and largest yielders. Tubers are round and smooth. Pink color.

**Earliest of All**
- It is about two weeks earlier and more productive than many other varieties. It is a round, white potato, very similar to Irish Cobbler, is uniform in size and shape, smooth, and of fine quality.

**Early Rose**
- The old standard early potato; is one of the best early varieties. Early Rose is too well known to require much description. It is of good size, oblong, the skin is a rosy blush and the flesh is white.

**Early Red Ohio**
- grown on high, dry land. One of the best pink potatoes, similar to Early Rose. Tubers round, oblong shape, eyes rather shallow but strong. A heavy yielding, dependable variety. An old favorite that is still popular.

**Early Sunrise or Pink Eye**
- This is one of the earliest and best potatoes on the market, and is becoming more popular with our growers each year. Resembles the Early Rose in shape and color, but is earlier, a better yielder and a superior keeper.

**Netted Gem**
- Sometimes called California Russet, Burbank, Idaho Russet, etc. A splendid main crop late potato that gives good results in dry sections. Tubers are elongated, medium sized, with russet netted skin; flesh white; eyes are flush with surface; good keeper and produces a fine yield. This is the variety grown extensively by irrigation in Washington and Idaho for baking. Our stock is extra choice of the most improved type.

**IMP. SEMESAN BEL.** For Seed Potatoes. Potato diseases cause a loss equivalent to the yield of one acre in every 5 or 6 acres planted. Much of this can be prevented by treating seed before planting with Imp. Semesan Bel., the instantaneous dip disinfectant. One lb. treats 16 to 22 bushels of seed. Price: 4 ozs. 50c; 1 lb. $1.75; 5 lbs. $8.00; 25 lbs. $31.25.

For best results treat your Seed Potatoes with Semesan Bel.
Pumpkins

CULTURE. Pumpkins can be planted with corn, or in the field by themselves. Plant in hills 8 by 10 feet each way; leave four strong plants to the hill; ½ pound of seed to 100 hills, 3 to 5 pounds per acre.

**Sweet or Sugar**

118 Days

A handsome and productive small pumpkin. Skin orange, flesh deep yellow, fine grained, very sweet. This is the famous "New England Pie Pumpkin."

Price: Pkg. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 50c; lb. 80c.

**Giant of All**

120 Days

"King of Mammoths." This colossal pumpkin is almost a globe shape. The skin is of a beautiful rich golden yellow, flesh firm, fine grained and deep yellow, sweet flavored, very thick and of excellent quality for so mammoth a variety. These pumpkins attain an enormous size and will carry away prizes at your county fair. Price: Pkg. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 50c; lb. 80c.

**Connecticut Field**

120 Days

A large, productive, orange colored field pumpkin, usually grown for stock, but good for pies. Price: Pkg. 5c; oz. 10c; ¼ lb. 35c; ½ lb. 50c; lb. 80c.

**Kentucky Field or Large Cheese**

120 Days

A large, productive, orange colored field pumpkin, usually grown for stock, but good for pies. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 75c.

Radishes

CULTURE. To have radishes crisp and tender, they must be grown quickly, and therefore require good soil and plenty of moisture. Plant the seed as early as possible, and for a successive supply until late in the season, sow at intervals of ten days in ground that has been deeply dug. Radishes can also be grown between rows of beets, lettuce, etc. One ounce will sow 100 feet of drill.

**Early Scarlet Globe**

24 Days

A small, round, red, turnip-shaped radish, with small top and very quick growth; very early; rich color and crisp, tender flesh. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Early Scarlet White Tipped**

26 Days

This is the favorite little, round, red radish with the white tip. Planted early in the spring it matures in 21 to 25 days. They are crisp and tender, and the flesh is snowy white. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**Early Long Scarlet**

27 Days

An early variety of long radish, popular for market as well as home use. The roots are straight, long and smooth. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**French Breakfast**

25 Days

This radish is a great favorite for family use and home gardens. Olive shaped, of rich scarlet color, shading gradually to white at the tip. Should be pulled for eating when about medium size. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**White Icicle**

27 Days

This superb radish is the finest and longest of the very early, pure white varieties. Planted in the spring, is ready for use in 20 to 25 days. Their long, slender form and pure, paper white skin are most attractive when bunched for market. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**China Rose**

52 Days

Do not sow this variety earlier than July, and pull before severe frost. A very good keeper. The China Rose is shorter and thicker than the Long Scarlet, and is bright rose in color. Flesh is very solid and white. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

WINTER VARIETIES

**Black Spanish**

56 Days

An excellent winter radish. Skin black, flesh white and highly flavored. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

**China Rose**

52 Days

Do not sow this variety earlier than July, and pull before severe frost. A very good keeper. The China Rose is shorter and thicker than the Long Scarlet, and is bright rose in color. Flesh is very solid and white. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 45c; lb. 75c.

Rhubarb or Pie Plant

CULTURE. Rhubarb is as easily grown from seed as from roots. It will grow almost anywhere in the garden, is very productive and will thrive for years. Sow in drills 1 inch deep, 3 to 6 inches apart. In the fall, transplant into good rich soil, about 4 feet apart each way.

**Victoria**

The best variety for family use. Is hardy, and of excellent flavor. Where good table quality is desired, the Victoria cannot be beaten. Price: oz. 20c; ¼ lb. 60c; ½ lb. $1.00; lb. $1.90.

For Roots see Page 19

ALL PRICES ON THIS PAGE ARE POSTPAID

Grow Lots of Pumpkins—Store for Winter
Spinach

One ounce will sow about 80 feet of row, 10 pounds to the acre. Spinach thrives in any ordinary soil and is a very easy crop to raise. For early spring use, seed should be planted in the fall.

**Thick-Leaved Improved**

A superior variety. It is especially good for early spring and successive planting for summer use, but is also an excellent variety for fall planting for winter and early spring use. A long standing variety, slow in going to seed. Price: Pkg. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

**Bloomdale Savoy**

A variety that has become a great favorite within late years. The numerous leaves are curled and wrinkled. A very productive variety, popular with market gardeners. Price: Pkg. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

**Mammoth Victoria**

A superior variety. It is especially good for early spring and successive planting for summer use, but is also an excellent variety for fall planting for winter and early spring use. A long standing variety, slow in going to seed. Price: Pkg. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

**Long Standing**

Has large, thick, round leaves. Very hardy. Adapted for either fall or spring planting. Slow to go to seed. Price: Pkg. 5c; oz. 10c; ¼ lb. 20c; ½ lb. 30c; lb. 50c.

**SALSIFY, or Vegetable Oyster**

One ounce will sow about 50 feet of row. Sow about 1 inch deep.

Salsify is one of the most delicious and nutritious of vegetables. Soups and salads made from it have a delicious oyster flavor. It is nice fried in butter or boiled and made into fritters.

**Mammoth Sandwich Island**

The largest variety and the most popular. Price: Pkg. 5c;

oz. 20c; ¼ lb. 60c; ½ lb. $1.00; lb. $1.90.

**Spinach**

Sometimes called the Des Moines or Individual. This is a small, acorn-shaped squash, with dark green skin. Flesh golden yellow. Are served individually by cutting open lengthwise from stem to blossom end, cleaning out seed and placing a large lump of butter in one half, place the two halves together again, bake, serve in the shell. Price: Pkg. 5c; oz. 15c; ¼ lb. 35c; ½ lb. 60c; lb. $1.10.

**Sibley or Pike’s Peak**

Smooth shell, thin and a pale green color; the flesh is thick, solid, deep orange color. Very dry, fine grained and a fine flavor. A good keeper. Price: Pkg. 5c;

oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

**Boston Marrow**

The favorite fall and winter squash of the Eastern States. Of large size. Color a deep orange. Excellent flavor and a good keeper. Price: Pkg. 5c;

oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

**Mammoth Chile**

This is the great exhibition squash and under special cultivation will attain a great weight and is very attractive in appearance. The skin is a rich orange-yellow, the flesh yellow and very thick. Always fine grained and sweet. A good winter keeper of highest value as a stock feed.

Prices: Pkg. 5c;

oz. 15c; ¼ lb. 35c; ½ lb. 60c; lb. $1.10.

**Summer Crookneck**

Very early, prolific, solid curved neck, skin yellow, thin. Flesh tender and good quality. Price: Pkg. 5c;

oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

**Early White Bush Scallop**

An extra early variety that is ready for use before any of the other varieties. Easy to grow and should be in all gardens, large or small. Vines will continue to bear if fruit is kept picked off. Price: Pkg. 5c;

oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 90c.

NOTE: ALL SEED ON THIS PAGE POSTPAID

Spinach and other Greens are essential in your diet.
**Tomatoes**

All Our Tomato Seed Treated with Semesan

**John Baer**

This variety is the result of fifteen generations of breeding. It produces perfect, solid, high crown, brilliant red tomatoes. They ripen ten days before Earlyiana, bearing 60 to 100 fruits per plant. The flavor is deliciously sweet. The plant will stand plenty of fertilization without going to vine. Keeps well; is a good shipper; a prolific, continuous bearer, and has the unusual remarkable feature of being easily peeled, the skin slipping readily from the rich, firm flesh. Resistant to wilt and other diseases. Prices: Pkg. 5c; oz. 25c; ¼ lb. 85c; ½ lb. $1.50; lb. $2.75.

**King of the Earliest**

The earliest good tomato on the market. Color a dark red. Flesh thick, smooth, firm and with few seeds. Finest quality. A heavy yielder for an early variety. If you live in a climate where your season is short, try this variety. Price: Pkg. 5c; oz. 25c; ¼ lb. 85c; ½ lb. $1.50; lb. $2.75.

**Spark’s Earliana**

A favorite with the market gardeners. Very early, productive and a good shipper. Fruit a deep scarlet, medium to large. Nearly round and exceptionally smooth for an early variety. Price: Pkg. 5c; oz. 25c; ¼ lb. 85c; ½ lb. $1.50; lb. $2.75.

**Marglobe**

A new variety developed by United States Department of Agriculture. Very wilt-resistant and is a handsome, deep red, globe-shaped tomato of great merit. Plants are vigorous, dark green and productive; fruits are quite large. A very desirable tomato for salad or slicing. Excellent for canning. Price: Pkg. 5c; oz. 25c; ¼ lb. 85c; ½ lb. $1.50; lb. $2.75.

**Ground Cherry or Husk Tomato**

Grows to great perfection under ordinary culture, yielding abundantly. Very much prized for preserving. Should be in every garden. Price: Pkg. 5c; oz. 35c; ¼ lb. $1.30; ½ lb. $2.50; lb. $4.50.

**Turnips**

Grow your winter supply of Turnips

**Rutabaga**

Improved Yellow Purple Top

The popular variety both for stock feeding and table use. Flesh yellow, solid and sweet. Price: Pkg. 5c; oz. 10c; ¼ lb. 25c; ½ lb. 40c; lb. 65c.

**All kinds of stock relish and thrive on rutabagas when fed in combination with hay. If planted the last of July or the first of August, the tops make an excellent pasture for sheep during the fall, and the rutabagas furnish succulent food for the stock throughout the winter. Yield is very heavy. Also popular for table use.**
Miscellaneous Seeds

BRUSSELS SPROUTS
These are miniature cabbages produced from the side of the stalk. They are regarded as a great delicacy cooked and served in the same manner as cauliflower. Sow in hot beds in March or April and in the open ground in May. Cultivate the same as cabbage. Price: Pkg. 5c; oz. 20c; ¼ lb. 65c.

COLLARDS
A plant similar to cabbage. It does not, however, produce a head. The center leaves are very tender and used as a pot herb. Are also desirable as greens for poultry and rabbits. Cultivate same as cabbage except plant 3 feet apart each way.

SOUTHERN GEORGIA. This is the old favorite. Light green leaves. Price: Pkg. 5c; oz. 15c; ¼ lb. 50c.

CRESS or PEPPER GRASS
Grows very quickly from seed sown thinly in drills. Used with lettuce to which it adds an agreeable pungency. Leaves are curled and very ornamental. Price: Pkg. 5c; oz. 10c; ¼ lb. 35c.

Egg Plant
Should be started in hotbeds and transplanted, using same methods as for tomatoes.

NEW YORK IMPROVED. This variety is the general favorite for both market and home gardeners. Very prolific, usually produces 4 to 6 large fruits to a plant. Color dark purple. Price: Pkg. 5c; oz. 50c; ¼ lb. $1.50.

ENDIVE
Culture same as for lettuce. Very hardy. Grown principally for winter salad.

GREEN CURLED. Hardy, vigorous grower, with deep green leaves. Price: New York Imp. Pkg. 5c; oz. 15c; ¼ lb. 40c.

KOHlrabi
This vegetable is a cross between a cabbage and a turnip. The edible portion is the large bulb, which forms on the stem above the ground. The bulbs have a mild, delicate, cabbage-like flavor. The plants are hardy and the seed may be sown practically all the year around. Plant like turnips and thin to 6 inches apart in row. One ounce of seed will produce 2000 plants.

EARLY WHITE VIENNA. Flesh white and tender. PRICE: Pkg. 5c; oz. 25c; ¼ lb. 75c.

ALL SEED ON THIS PAGE POSTPAID

Our Roots and Plants are from locally grown, well selected, hardy stock.

PARSLEY
Culture same as lettuce. Parsley is used mostly for seasoning and garnishing. Its flavor is exceedingly pleasant.

CHAMPION MOSS or TRIPLE CURLED. The most popular variety for both the home and market garden. Price: Pkg. 5c; oz. 10c; ¼ lb. 35c.

TOBACCO

CONNECTICUT SEED LEAF. Hardy, and the best adapted to cool localities. Grows to a height of about 5 feet. Price: Pkg. 5c; oz. 75c.

HERBS

ANISE. An annual, cultivated principally for the seed, which has a fragrant smell and pleasant taste. Used for medical purposes; leaves used for garnishing and flavoring. Price: Pkg. 5c; oz. 40c.

CATNIP. Perennial. Leaves and young shoots used for flavoring. Price: Pkg. 5c; oz. 40c.

DILL. One of the most widely grown herbs. The seed are used in soups, sauces and stews. The stems, leaves and flower heads are used to make dill pickles. Price: Pkg. 5c; oz. 10c.

FENNEL. Used for garnishing and fish sauces. Price: Pkg. 5c; oz. 30c.

HOREHOUND. This herb is used for flavoring candy, also in medicine. Sometimes planted as bee pasture. Price: Pkg. 5c; oz. 50c.

SAGE. The most widely grown herb for seasoning. The leaves are used either green or dry. Price: Pkg. 5c; oz. 30c.

SUMMER SAVORY. A hardy annual. When dried the stems, leaves and flowers are used for flavoring soups and dressings. Price: Pkg. 5c; oz. 15c.

SWEET MARJORAM. The tops are used either green or dry for seasoning. Price: Pkg. 5c; oz. 50c.

THYME. Used for flavoring soups, sauces, dressings. Price: Pkg. 5c; oz. 50c.

WORMWOOD. Used as a tonic in the form of tea. Price: Pkg. 5c; oz. 40c.

MARK MEANS COMPANY, 1936 ANNUAL SEED CATALOG, LEWISTON, IDAHO
Flower Seeds

Asters

DWARF MIXTURE. In this mixture only the most distinctive and desirable colors of dwarf asters are used, being especially selected so as to give you satisfaction. Pkg. 10c.

Asters

TALL MIXTURE. This mixture is selected from the best of the tall varieties, in beautiful and striking colors. Pkg. 10c.

Giant Crego Asters

AZURE BLUE. A beautiful shade of deep sky-blue with just a shade of pink. A free bloomer with large double flowers on long stems. Pkg. 10c.

PINK. A lovely shell pink aster of great size. Pkg. 10c.

LAVENDER. A pleasing shade of silvery lavender. Pkg. 10c.

PURPLE. This is an outstanding favorite with many gardeners. A deep, rich purple. Pkg. 10c.

WHITE. Pure white flowers of large size. They are always double and never show a yellow center until they are long past their prime. Pkg. 10c.

CRIMSON. A brilliant crimson shade. Pkg. 10c.

Giant Crego Mixed

A mixture of the above choice varieties. Pkg. 10c.

King Asters

Large size flowers of distinctive beauty, with long narrow petals much folded so as to appear quilled. Grows about 2 feet tall. A valuable class of Asters for garden display and for cutting. Tall and strong growing. Mixed. Pkg. 10c.

Abroa

DANDY VERBENA. An excellent Verbena like trailing plant, with fragrant flowers of bright rose with white center. Does very well in a dry, poor soil and sunny situation on rock work. Pkg. 10c.

Acrinum

EVERLASTING FLOWER. A pretty everlasting, with daisy-like flowers of bright rose. When cut in bud state can be dried and used in the home, or for bouquets in the winter. Pkg. 10c.

Adonis

PEASANT'S EYE. Large, star-shaped, yellow flowers, used for rock gardens and borders. Is one of the earliest flowers to bloom. Pkg. 10c.

Ageratum

FLOSS FLOWER. The pretty flowers, produced in clusters, bloom in the greatest profusion all summer and fall. Easily raised. Very effective for borders and solid beds. Dwarf varieties are grown as pot-plants for fall and winter blooming. Dwarf Blue. Pkg. 10c.

Alyssum

ALYSSUM. Blooms early and lasts until fall, and shows up in any advantage in borders. Is covered with spikes of small flowers, giving a very pleasing effect. Pkg. 10c.

Amaranthus

LOVE LIES BLEEDING. An annual with long, drooping spikes useful for borders of tall plants. When planting, give them sufficient room to fully develop. Can be flowered in small pots under glass. The foliage is brilliant. Pkg. 10c.

Antirrhinum

SNAPDRAGON. One of the most valuable flowers, which can be readily grown from seed. Large flowers of gorgeous coloring and very fragrant. Produced on immense long spikes, making them well adapted for cut flowers. Pkg. 10c.

Arctotis Grandis

AFRICAN DAISY. Grows branched bushes 2 to 3 feet high, with daisy-like, showy flowers of pure white on the upper surface, the reverse of petals pale lilac blue. Is valuable as a cut flower, the blooms lasting a week or ten days in water. It delights in a sunny situation and is very easily grown from seed. If undeveloped buds are cut and placed in a sunny window, every one will open and produce as fine flowers as though left on the plant. Pkg. 10c.

Bachelor Button

CORN FLOWER. Hardy annual of simple beauty. Easily cultivated and produces flowers of great variety of rich colors. Pkg. 10c.

Balsam

LADY SLIPPER. A favorite garden flower, producing masses of beautiful double flowers in great profusion. Succeeds in a good rich soil and plenty of water. To grow fine specimens the plants should be set from 12 to 18 inches apart. Pkg. 10c.

Begonia

EVERBLOOMING BEDDING VARIETY. A continuous flowering section of Begonias; is of great value for bedding. They are of sturdy growth, about 1 foot high, forming dense bushes, which are completely hidden with flowers of different shades. Easily raised from seed, and as pot plants for winter flowering they are unexcelled, remaining a sheet of bloom throughout the year. Pkg. 10c.

Calendula

POT MARIGOLD. One of the best hardy annuals, growing in any good garden soil, and producing a fine effect in beds or mixed borders. Continues blooming from early summer until freezing weather. Pkg. 10c.

Calliopsis

Very graceful border plants. Beautiful free flowering annuals, producing an abundance of showy flowers, which are prized for bouquets and vases. They will thrive anywhere and the flowering season can be lengthened until late autumn by keeping the old flowers cut off. Pkg. 10c.

Canary Bird Vine

RAPID GROWING ANNUAL. With canary yellow blossoms resembling a bird with wings half extended. Pkg. 10c.

Candytuft

PROUSE BLOOMERS. They soon flower from seed, and remain long in blossom. Are especially adapted for edging and borders, also greatly prized for cutting. Mixed Pkg. 10c.

Canna

INDIAN SHOT. Enormous, brilliant clusters of bloom borne on spikes above broad leaves of green or bronze in tropical effect. These are grown from roots, but can be successfully grown from seed if planted early. The seed should be soaked in warm water until it starts to swell and then sown in sandy soil and keep in hot bed or house until the proper season to plant out. Pkg. 10c.

Canterbury Bell

These fine old plants are rich in color, produce in bloom and of easy culture. Cup and saucer. Mixed colors. Pkg. 10c.
Cardinal Climber
Considered one of the most beautiful and brilliant annual climbers. Rapid grower with fern-like foliage covered with cardinal red flowers. Pkg. 10c.

Carnation
The Carnation has long been prized as a hardy border flower. It is free flowering and easily grown, either in flower beds, borders or pots. It is one of the most valuable and beautiful of our summer flowers and a favorite with everyone. Plants raised from seed bloom more profusely than propagated plants, and are therefore to be preferred. Marguerite Mixed. Pkg. 10c.

Chrysanthemum
The single-flowering, annual Chrysanthemums are showy and effective garden favorites, extensively used for cut flowers. Mixed. Pkg. 10c.

Clarkia
Clarkias are popular summer annuals, hardy; can be grown easily in ordinary soil. Used for bedding and borders. Grows about 18 inches high and bears bright rose, purple and white flowers. Best Mixed. Pkg. 10c.

Cup and Saucer Vine
ing to rose purple as they open up fully. In warm climates this will live outdoors all the year around. Pkg. 10c.

Cockscomb
(Celosia Cristata.) Very attractive and showy, producing massive heads of red, purple and yellow flowers. Mixed. Pkg. 10c.

Columbine
AQUILEGIA. No plant grown from seed is more easily grown and handled than Columbine. Seed may be sown in the open ground early in the spring, and will, in some cases, bloom the same season; or they may be planted in August or September and will come up early in the spring and make vigorous plants which will bloom profusely during the late spring and summer. Pkg. 10c.

Coreopsis
Large, showy, bright yellow flowers, produced in great abundance from June until frost. Height 1 to 2 feet. Pkg. 10c.

Cosmos
Should be sown in spring, in the open ground when danger of frost is past, or the seed may be started under cover and transplanted. Plant not less than 18 inches apart. When the plants are about a foot high the tops should be pinched out to induce a bushy growth.

(CNEW) EARLY KLONDYKE ORANGE FLARE. The long stemmed flowers of bright vivid orange are freely borne on two to three foot, well shaped plants which have a sparse growth of light green foliage. Its most remarkable feature, however, is its early blooming habit. It will flower easily in less than four months from the time of planting. As its blooming season is long, it is indeed a fine new flower. "All-American" Gold Medal for 1935. Pkt. 25c.

MIXED COLORS, Pkt. 10c.

Cypress Vine
Rapid growing climber with fern-like foliage dotted with small star-shaped flowers, orange, scarlet and white in color. Soak seed before planting. Pkg. 10c.

Coleon
FLAME NETTLE. The handsomest foliage plant that can be raised from seed. The leaves often measure 16 inches in length and 8 inches wide, heart shaped, crimson toothed and frilled with a very rich color combination. Fine mixed. Pkg. 10c.

Shasta Daisy
Immense white flowers borne in great profusion. Easy to grow even in poor soil. Makes a fine display, blooming throughout the season. Grows 2 to 3 feet tall. Pkg. 10c.

Dusty Millers
Dusty Millers are sometimes classes as Cinerarias. They are extremely showy, with silvery-white leaves. The plants grow 8 to 12 inches tall and lend themselves particularly well for borders to taller growing annuals or perennials. Pkg. 10c.

Forget-Me-Not
MYOSOTIS. These are considered among the best spring flowers. Respond to good treatment and flourish in shady, moist situations. The National flower of Belgium. Mixed Pkg. 10c.

Gaillardia
BLANKET FLOWER. Grows in compact, bushy form about 3 feet high and the same in breadth. Bears freely from early spring to late fall, brilliant flowers in red and yellow, blended and shaded. Mixed colors. Pkg. 10c.

Geum (Mrs. Bradshaw) (Chiloense)
Hardy, free blooming, with large, double flowers of a fiery red. Blooms all summer; 8 to 12 inches. Pkg. 10c.

Gypsophila
BABY'S BREATH. Pretty, free flowering plants, succeed in any garden soil. Their misty white panicles of bloom are used largely for mixing with other cut flowers. Pkg. 10c.

PERENNIAL BABY'S BREATH—Single (Gypsophila paniculata). Tiny white flowers borne on slender stems. The plants are simply covered with blooms during June and July; 2½ feet. Pkg. 10c.

Heliotrope
Heliotrope is a universal favorite on account of its delightful fragrance and duration of bloom. It blooms equally as well as a bedding plant in summer, or as pot plants in the house during the winter. Very easily grown. Finest Mixed. Pkg. 10c.

Helichrysum
Straw Flowers. Helichrysums are an ornament to the garden when growing and are everywhere prized for the winter decoration of vases. Flowers for drying should be gathered when partially unfolded and suspended with their heads downward in a cool place. Mixed. Pkg. 10c.

ALL SEED ON THIS PAGE POSTPAID

Flowers speak a language of beauty that is understood by all
Lobelia
Greatest value for borders, edgings and mixed borders. One of the standard flower favorites, and well-known, fragrant. Planting in mixed borders or among colors. Pkg. 10c.

Rapid-growing climbers, easily cultivated. Pkt. 15c.

Larkspur
Double Delphinium. This is one of the best known of the garden flowers, and in recent years a vast improvement has been made by careful selection in size and color of the blossoms and the general habit of the plants. Seed sown in the open ground before the close of April will produce flowering plants by the beginning of July, and give a continuous succession of flowers from then until frost. Mixed colors. Pkg. 10c.

Lantana
Hybrida—Mixed. 2 feet. Shrubby plant with Verbena-like flowers in shades of white, red and yellow. May be grown in pots or set out in summer; remaining in bloom late in autumn. They have an agreeable aromatic perfume. Pkg. 10c.

Kudzu Vine
Beautiful Japan Climber, hardy perennial with fragrant, purplish-violet flowers. Pkg. 10c.

Kochia
MEXICAN BURNING BUSH. An easily grown annual; forms a cypress-like hedge of green of perfect symmetry; by midsummer it attains a height of 3 feet, and late in the autumn the whole plant becomes a deep red. A splendid plant to divide the vegetable from the flower garden, or for forming a hedge. Pkg. 10c.

Larkspur
Double Delphinium. This is one of the best known of the garden flowers, and in recent years a vast improvement has been made by careful selection in size and color of the blossoms and the general habit of the plants. Seed sown in the open ground before the close of April will produce flowering plants by the beginning of July, and give a continuous succession of flowers from then until frost. Mixed colors. Pkg. 10c.

Larkspur
Double Delphinium. This is one of the best known of the garden flowers, and in recent years a vast improvement has been made by careful selection in size and color of the blossoms and the general habit of the plants. Seed sown in the open ground before the close of April will produce flowering plants by the beginning of July, and give a continuous succession of flowers from then until frost. Mixed colors. Pkg. 10c.
**Giant Petunia**

For outdoor decoration, porch or window boxes few plants equal the Petunia. They commence flowering early and continue to bloom throughout the season. Easy to cultivate, only require a good soil and sunny position.

**LARGE FLOWERING, DOUBLE PETUNIAS.** In growing Double Petunias from seed the weaker seedlings should be carefully saved, as these usually produce the finest double flowers. Double Mixed. Pkg. 35c.

**SINGLE PETUNIAS.** This is a mixture of all the best varieties and will make a beautiful showing. Pkg. 10c.

**GIANT FLUFFY RUFFLES.** Large flowers, beautifully waved, and most artistically fringed and ruffled on the edges. Includes a wide range of bright and showy colors—pink, scarlet, crimson, lavender, purple, and others. Many are self-colors, others are attractively mottled and blotched in a most showy manner. Pkg. 25c.

(NEW) **ROSY MORN.** Single clear pink with white throat. Pkt. 10c.

---

**Phlox**

Phlox is one of the easiest grown and most popular of all the summer flowering annuals. The brilliant colors always make a good impression. One of its most valuable characteristics is its free-blooming habit. To have good stocky plants the seedlings should be thinned to stand not less than 6 inches apart in the row. Sow early in the spring. We offer a blend of the best varieties of the tall annual Phlox. Pkg. 10c.

**Physalis (CHINESE LANTERN PLANT)**

Scarlet balloon-like pods which resemble a miniature lantern appear the second and following years. After cutting, remove leaves and hang stalks sidewise until fruit is dried, when they make interesting winter bouquets. Pkt. 10c.

**Pinks**

**ANNUAL DIANTHUS—SINGLE.** Few flowers equal the old-fashioned pinks in beauty and profusion of bloom. They are easily grown and do well in almost any kind of soil and location. Sow seed in ground when the maples are coming into leaf. Cover with % inch of soil. Best single mixed. Pkg. 10c.

**DOUBLE CHINA.** This is a great favorite with gardeners who appreciate a fine show of annual pinks from midsummer until frost. The flowers of these Double Chinese Pinks are borne in clusters carried upright on strong stems. In addition to colors such as white, pink, rose, scarlet, crimson and maroon, there are many which are attractively bordered with a narrow or broad white edge. Pkg. 10c.

**Portulaca**

**MOSS ROSE.** A beautiful hardy annual, unsurpassed in brilliancy by any other annual. The plants are low growing and creep along the ground. They thrive in almost any location. A complete mixture, orange, white, red, salmon, buff and other shades. Pkg. 10c.

---

**Poppies**

**Oriental Poppies**

Oriental Poppies should be sown in the open ground as soon as it can be worked. Pkt. 10c.

**Shirley Poppies**

Annual Poppies should be sown as early as the ground can be worked. Sow in permanent bed, as they do not stand transplanting. If picked just before expanding, they will last for several days. Mixed. Pkg. 10c.

**California Poppies**

Plants are adapted for beds or borders. Mixed. Pkg. 10c.

**Ricinus**

**CASTOR OIL BEAN.** An easily grown plant of picturesque appearance. Grows from 8 to 10 feet in height and bears immense leaves. The plant is surmounted by large flower spikes and brilliant colored seed pods. Should not be set closer than 6 feet apart. The large seed should be planted in boxes in March and plants transplanted in May. Pkg. 10c.

**Salvia**

**FLOWERING SAGE.** Scarlet sage has long been a favorite bedding plant, bearing long spikes of flowers in profusion from July to frost. Seed can be started in hotbeds or in the open ground after danger of frost is past. Pkg. 10c.

**Snapdragon (See Antirrhinum)**

**Scabiosa**

**MOURNING BRIDE.** 2½ feet. Commonly known as the Pincushion Plant. The flowers are long and the blossoms keep well in water. The soft shades predominate. When given plenty of room and the seed vessels are kept regularly picked off, it will last through the whole summer. Owing to its sweetness the bees are very fond of it and the floral flavors also attract all the most beautiful types of butterflies to the neighborhood. Pkg. 10c.

**Scabiosa**

**MOURNING BRIDE.** 2½ feet. Commonly known as the Pincushion Plant. The flowers are long and the blossoms keep well in water. The soft shades predominate. When given plenty of room and the seed vessels are kept regularly picked off, it will last through the whole summer. Owing to its sweetness the bees are very fond of it and the floral flavors also attract all the most beautiful types of butterflies to the neighborhood. Pkg. 10c.

**Scarlet Runner Beans**

A great favorite in Europe, not only as an ornamental climber, but for the delicious edible beans which follow the spray of bright scarlet pea-shaped blossoms. Pkg. 10c.

---

**Sweet Peas**

Sweet Peas are a necessity for every garden—Our Spencer varieties are the best.
**Snow-on-the-Mountain** *(Euphorbia marginata)*. An unusual but easily grown annual which adds variety to the mixed border or may be planted in rows or beds. The plants make an open and free-branching growth, about 3 feet tall. The crown of each plant produces small flowers beautifully set off by the top leaves, which are marked with broad white bands on rich green ground. Sow where to bloom to avoid transplanting. Pkg. 10c.

**Stock** The plants of the large flowering Ten Weeks Stocks grow from 15 to 18 inches tall. They are used for borders, florists' designs or pot culture. The sweet-scented, double flowers are borne profusely on strong, stocky spikes. Best mixed. Pkg. 10c.

**Double Chrysanthemum-Flowered Sunflower**. A wonderful Sunflower with full, double, golden-yellow blooms like a giant Chrysanthemum, 6 to 8 inches in diameter. The heads are made up of thousands of small fringed petals, forming a broad, thick flower. The plants grow nearly 7 feet tall and are covered with blooms. Pkg. 10c.

**Early Flowering Spencers**. For outdoor or greenhouse culture. This class should have more attention from home growers who have been disappointed with the late flowering type. Blooming 3 to 4 weeks earlier, they are in full bloom before the Summer dry-spell arrives, and where nights are cool, they continue to bear for months.

- **Silver King** (light blue)
- **Eldorado** (orange)

**Late Spencer Standard Varieties, Summer Flowering**.

- **Wedgewood** (bright blue)
- **Tangerine** (orange scarlet)
- **Pinkie** (rose pink)
- **The Sultan** (dark maroon)

Straight colors, Pkg. 10c; oz. 30c.

**Mixed Spencer** The best assortment of new and choice Spencers in an even mixture. Pkg. 10c; oz. 25c.

**Thunbergia Black Eyed Susan Vine**. An elegant, graceful and slender climber, producing bright cadmium yellow blooms. Excellent for hanging baskets and ground cover. Of quick growth, blooming profusely from June until October. Pkg. 10c.

**Verbena** Verbenas thrive in almost any situation and in all good soil. They make very attractive borders and beds, bloom freely from June until October. Plant the seeds indoors in February or March, and transplant outdoors in May. Keep the soil moist, as the seed requires as long as three weeks to germinate. We offer a collection of Mammoth Verbena, which produces splendid clusters in a wide range of colors. Pkg. 10c.

**Wall Flower** These sweet-scented flowers are beautiful for beds, borders or for cutting. Mixed colors. Pkg. 10c.

**Giant Zinnias** Easily grown, doing well in almost any kind of soil. Blooms freely from early summer until frost. Our special strain of Giant Zinnias represent the largest and most perfectly formed Zinnias grown. Pkg. 10c.

**New Dahlia Flowering Zinnias** Dahlias Flowering Zinnias are of recent origin, yet they quickly became known because of their many outstanding features. The flowers are of an immense size. They are made up of a large number of small petals, which stand well apart, adding greatly to the grace and looseness of the bloom. Seed may be started indoors or planted direct in the garden after danger of frost is past. Will bloom from midsummer until frost. We offer a complete mixture of popular shades. Pkg. 10c.

**Polar Bear**. This is the best of all the White Zinnias. Large, well formed and double. Pkg. 10c.

**Golden State**. Rich golden yellow, shading to bright orange when the flowers reach their full size. Pkg. 10c.

**Crimson Monarch**. Rich crimson. By far the largest and best of the red shades. Flowers often 8 inches in diameter. Pkg. 10c.

**Dream**. A distinct shade of deep lavender, changing to a purple tint as the flowers age. Pkg. 10c.

**Oriole**. An immense orange and gold bi-color. Very popular variety. Pkg. 10c.

**Exquisite**. Perfectly symmetrical flowers of a pleasing rose pink shade with a deeper rose center. A truly exquisite flower of magnificent size and good form. Pkg. 10c.

**Mixed Dahlia Flowered Zinnia**. A special mixture of the choice colors. Pkg. 10c.

**Dwarf Mixed Zinnias** A complete mixture of this elegant free-blooming dwarf type. Pkg. 10c.

**Wild Flower Garden**

This is a complete mixture of easily grown Annuals which give a wonderful show with flowers from early summer until frost. It should be sown thinly either in rows or broadcasted so that the individual varieties can develop freely. Pkg. 10c.

---

Our Giant Zinnias bloom from mid-summer until frost.
Almond (Prunus)
PINK FLOWERING (P. Japonica). Well-known early dwarf shrub. Double, clear pink little roses festoon the gracefully bending branches. Height at maturity, 3 feet. Each 75c, postpaid.

Althaea (Rose of Sharon)
Late summer blooming; continues into the fall when color is scarce, bearing flowers that closely resemble Hollyhocks in color and size. Colors pink, white or red. Maturity height, 10 feet. Each 75c, postpaid.

Buddleia
FARQUHARI. A new, rather dwarf, compact growing variety of the Butterfly Bush or Summer Lilac. Has rich green foliage with silvery reverse, and bears in late summer long racemes of rich lilac-purple flowers. Two year. Each 60c, postpaid.

Barberry
B. THUNBERG (Japanese). Low growing with clusters of white flowers in May. Foliage changes to a red in autumn. Maturity height, 4 feet. Each 75c, postpaid.

Deutzia
DEUTZIA GRACILIS. One of our daintiest and most graceful flowering shrubs. Low growing, slender branches, covered with a profusion of flowers, white with a blush of pink in the bud. Each 75c, postpaid.

Prunus
PRIDE OF ROCHESTER (Deutzia Crenata). Pure white, tinged with blush. Flowers very double, blooming May and June. Maturity height, 6 feet. Each 75c, postpaid.

Symphoricarpos (Snowberry)
S. OCELLNENTIS (Western Snowberry). A native shrub of spreading habit, bearing small, pink flowers in summer and clusters of large, clear white berries in winter. Maturity height, 5 feet. Each 50c, postpaid.

S. VULGARIS (Indian Currant). Red fruited snowberry, habits similar to white, but loaded with dark red berries fall and winter. Grows to 4 feet. Each 50c, postpaid.
Privet (Ligustrum)

CALIFORNIA PRIVET (L. Ovalifolium). Our best plant for hedges. Plant in double row 2 feet apart, 6 inches between plants. Maturity height, 10 feet.
18 to 24 inch, 10 plants $1.00; 100, $7.50.
12 to 18 inch, 10 plants $0.75; 100, $6.00.

ENGLISH PRIVET (L. Vulgare). A little hardier, for colder climate; leaves smaller. Maturity height, 10 feet.
18 to 24 inch, 10 plants $1.00; 100, $7.50.
12 to 18 inch, 10 plants $0.75; 100, $6.00.

Spirea

BILLARDI’S (S. Billardi). Flowers red in dense spikes. Blooms most of summer. Maturity height, 4 feet. Each 60c, postpaid.

CRIMSON—Anthony Waterer (S. Bumalda). A desirable variety; deep red flowers, blooming all summer; fine for foreground planting. Maturity height, 4 feet. Each 50c, postpaid.

PRUNIFOLIA (Bridal Wreath). Slender, erect growing, having beautifully colored foliage and bearing very early in the spring. Small double, white flowers the entire length of its branches. Each 60c, postpaid.

Vine

SPRENGELII. Charming spirea with graceful form and abundant blooms. Maturity height, 4 feet. Each 60c, postpaid.

VAN HOUTTEI’S BRIDAL WREATH (S. Van Houttei). Very graceful; flowers white in clusters. May. Maturity height, 6 feet. Each 50c, postpaid.

Weigelia

A most desirable free-flowering shrub, covered in the late spring with a mass of trumpet-shaped flowers, showing a profusion of bloom that is unequalled. Maturity height, 12 feet. Each 75c, postpaid.

CANDIDA. Flowers white, bush tall.

ROSEA. Flowers light pink, shrub compact.

EVA RATHKE. Flowers red; one of the best.

VARIEGATED. Leaves become silver white.

Vines

Boston Ivy

The most popular climbing vine for covering brick, stone or wooden walls. When it becomes established it is a very rapid growth and clings to the smoothest surface. The foliage is of a rich olive green during the summer, changing to various shades of bright crimson and scarlet in the fall. Strong, two-year roots. Each 75c, postpaid.

Celastrus (Bittersweet)

A rapid-growing climbing plant, with attractive light green foliage and yellow flowers during June, which are followed in the autumn with bright orange fruit. Each, 1.25, postpaid.
Grapes

**CAMPBELL’S EARLY.** Nearly round, black, with light purple bloom; flesh rather firm but tender; quality rich, sweet, slightly vinous. A strong, vigorous grower. August.

**CONCORD.** Large, black grape; bunches compact; berries round, sweet, pleasant. August.

**DELAWARE.** One of the finest of our native grapes. Grows freely; perfectly hardy; ripens early; berries small, bright red. August.

**LUCILE.** Good medium large, red grape; hardy. August.

**MOORE’S EARLY.** Berry large, resembling Concord, but more pulp and earlier.

**NIAGARA.** Bunch medium; berry large, roundish, uniform; skin thin but rough; pale yellow flesh, tender and sweet; vine vigorous and productive. One of the best white. September.

**WORDEN.** Bunch large and compact; berry large, black; improved Concord. Late August.

2-year plants, each 20c; 10, $1.75; 100, $15.00; postpaid, each 25c; 10, $1.90; 100, $15.50.

**GARDEN SIZE NITRAGIN**

Inoculates from 1 oz. to 8 lbs. seed.

**PLANTONE—4-20-5**

For lawns, flowers, vegetables, trees and shrubs. All plants need a number of food elements. Plantone is scientifically prepared especially for Western soils, and contains the needed elements in right proportions. Plantone is odorless and easy to apply. Price: 100 lbs. $3.50; 50 lbs. $2.25; 25 lbs. $1.50; 10 lbs. 85c; 5 lbs. 45c; 1 lb. Can 10c.

**SULPHATE OF AMMONIA**

Analysis—Nitrogen as Ammonia 25%

Sulphate of Ammonia is one of the most quickly available and most desirable forms of nitrogen to use. It is at once absorbed by the water in the soil and immediately effective. Use 2 to 3 pounds to fertilize 1,000 square feet of lawn or 400 to 600 pounds per acre. Price: 100 lbs. $3.50.

**NITRATE OF SODA**

Analysis—Nitrogen as Ammonia 18%

One of the most valuable fertilizers where quick leaf growth is desired. Used extensively for fruit trees, lettuce, radishes, celery and other quick-growing crops. Price: 100 lbs. $3.50.

**BONE MEAL**

Analysis—Nitrogen 2%; Phosphoric Acid 8%

Bone Meal is one of the best fertilizers to use where Nitrogen and Phosphoric Acid are needed. It is especially good for lawns and flower beds. Is slow in action and there is no waste as the plant food is released only as fast as it can be taken up by the plants. It can be used in almost unlimited quantities without danger of burning the plant. Price: 100 lbs. $2.75.

**GYPSUM or LAND PLASTER**

A necessary plant food for legumes on soils that are lacking in sulphur. Will increase the yield from 50 to 100%. Apply at the rate of 200 pounds to the acre every second or third year. Price: 100 lbs. 90c; ton $15.00.

**SHEEP GUANO**

One of the best fertilizers for lawns and gardens. Free from any disagreeable odors. Our brand is kiln dried and thoroughly pulverized, and is therefore quick in action. There is no danger of applying too much. 100 pounds is sufficient to fertilize 1,000 square feet of lawn. Price: 100 lbs. 90c. Special quantity price of $15.00 per ton.

We can supply any kind of fertilizer you are interested in, and will be glad to quote prices upon receipt of your request.
SODIUM CHLORATE AND ATLACIDE (Calcium Chlorate)

5 ozs. .1.00
5 lbs. .5.85

$1.00; 16 ozs. $2.00; 32 ozs. $3.50; gallon bottle $13.00.

Chlorates are used by the Federal Government and recommended by State Agricultural Experiment Stations for killing noxious weeds, etc. Please write for literature and prices.

SPRAY YOUR PLANTS THIS NEW SAFE WAY

A highly effective, non-poisonous insecticide. Absolutely harmless to man, livestock, birds and pets. (No danger of eating poisoned vegetables.) Cannot burn or otherwise injure most delicate plants even in the concentrated solutions. Keeps its strength indefinitely. Remains in solution and concentrated solutions. Keeps its strength indefinitely. Moos, gophers, squirrels, etc. from pulling corn.

Copper Carbonate, 50 per cent, per lb. $0.23

8 oz. Can. Enough to treat 1 bu. seed corn. Postpaid $.70

PARIS GREEN,

4 ozs. 1 oz. $0.35
2 lbs. 1 lb. 2.25

$13.00

Spray your plants this new safe way. Full instructions with each bottle.

INCREASE FARM PROFITS AND GARDEN PLEASURES

SEMENSA JR. For Seed, Field and Sweet Corn. Semesan Jr. destroys harmful disease organisms on the seed, protects seed from rotting in cold, wet soils, makes earlier planting possible, controls seedling blight, reduces root and stalk rot and generally increases crop yield. Use 2 ounces per bushel of seed. Price: 4 ozs. 50c; 1 lb. $1.75; 5 lbs. $.85; 26 lbs. $31.25.

CYCLONE SEED SOWER

Guaranteed to distribute seed perfectly, direct and evenly to the land. Sows clover, timothy, red top, alfalfa, oats, rye, wheat, millet, buckwheat, turnip and other varieties of farm seeds. Clover seed is sown at a width of 18 feet; timothy, 15 feet: alfalfa, 20 feet; wheat, 25 feet; millet, 18 feet; oats, 18 feet.

Price, $2.60 each, postpaid. $2.45 each, not postpaid.

GRIT AND SHELL BOXES

These boxes are the most practical means of economical feeding of grit, shell, bone, charcoal, etc. They will soon pay for themselves in material saved and will last a lifetime.

No. 33—20 in. Price postpaid $0.40
**Acme Dawg-Gone**

Protect that evergreen—keep dogs away. Remove cap and hang tube of Dawg-Gone (opening down) in the lower branches of trees at the points of approach. Never necessary to place tube in every tree unless standing alone. The odor slowly emanating from the open tube will keep dogs at a distance—replaces unsightly wire screens or mechanical contrivances. Mailable. Tubes 35c each or 3 for $1.00.

**Acme Paris Green**

A rich, emerald color and of fine fluffy physical character. Containing 55%c arsenious oxide, it will give quickest control where extreme measures are necessary.

For use on potatoes, cotton, tobacco, also to mix with arsenate of lead for fruit tree spraying where quick results are necessary. Prices: ½ lb. 20c; 1 lb. 50c; 5 lbs. $2.25.

**Acme Aphis Spray**

An improved nicotine spray combining a soft fish oil soap with Black Leaf 40, suitable for the control of all kinds of aphis (plant lice), thrip, leaf hopper and many more hardy insects infesting rose bushes, flowers, shrubs, vines, bushes and trees. Mixes easily with any kind of water. Complete directions found with every package.

Prices: 3 oz. collapsible tube $0.35
12 oz. collapsible tube .95

**Acme All Round Spray**

Flowers, vines, shrubs, roses, vegetables need protection same as commercial crops. All Round Spray contains the three leading remedies used by all large growers. Arsenate of Lead, Nicotine Sulphate and Bordeaux Mixture.

Perfect protection for the small user is assured by complete directions in form of spraying guide attached to every package. Prices: ½ lb. 40c; 1 lb. 90c.

**Acme Bordeaux Mixture**

Prevents large losses caused by blight, rot, mildew, scab, anthracnose and certain other fungous diseases. It stimulates plant growth and greatly increases the harvest. Almost every kind of vegetable, fruit and shrub can be greatly improved by the early use of Bordeaux Mixture. Prices: 1 lb. 35c; 4 lbs. 75c; 100 lbs. $18.00.

**Acme Garden Guard**

A garden insecticide and fungicide for use as a dust. No water, no mixing, no muss. For use on cabbage, cauliflower, tomato plants, melon vines, currants and gooseberries and other vegetables, flowers and shrubs of many kinds.

Prices: 1 lb. sifter carton 35c.

**Acme Arsenate of Lead**

The most favored arsenical insecticide found on the American market. It is safest to use on tender foliage and sticks well on the leaves. Recommended for fruit trees, vegetables, bushes and tobacco. Can be used as dust or spray.

Prices: ½ lb. 20c; 1 lb. 35c; 4 lbs. 75c; 100 lbs. $18.00.

**Acme Lime Sulphur**

Standard 33° Baumé lime and sulphur converted into a dry powder but having all the effectiveness of the liquid product when dissolved in water.

For use in dormant spraying against scale, peach blight, leaf curl and twig borer. Summer spraying against scab, soot, blotch, red spider and mite. Mailable. Prices: 1 lb. 35c; 5 lbs. $1.40; 10 lbs. $2.75; 25 lbs. $4.50; 50 lbs. $8.50; 100 lbs. $14.50; 200 lbs. $24.00.

MARK MEANS CO. give no warranty, express or implied, as to description, purity, productiveness or any other matter of any seeds, bulbs or plants they send out, and they will not be responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.

(over)
### IDAHO SALES TAX

According to the Idaho law we have to collect a tax on retail sales as follows:

- All sales under 50c are exempt
- All sales of 50c to 99c are exempt
- All sales of $0.50 to $0.99 are exempt
- All sales of $1.00 to $1.49 are exempt
- All sales of $1.50 to $1.99 are exempt
- All sales of $2.00 to $2.49 are exempt
- All sales of $2.50 to $2.99 are exempt
- And so on.

The tax is not to be computed upon each individual item, but upon the total amount of all items ordered.

For example, an order may be for several items, such as 15c, 25c, 60c, 80c, 10c, 35c, 45c, a total of $2.70. The tax on this would be 5c.

This tax applies only on orders from Idaho points.

Please total amount of your order then add the Sales Tax.
LAWN GRASS SEED

To have a good lawn the soil must be rich, carefully worked and well leveled. All refuse should be removed and some good fertilizer worked into the soil. Either fine pulverised Sheep Guano or Plantone Lawn Fertilizer will give good results. Then use the best seed obtainable. Plant any time from September until late spring. Rake in the seed and then roll. In watering your lawn soak it deeply and not too often, as frequent light waterings tend to bring the roots close to the surface, where they quickly dry out and sometimes burn out. But don't expect to make a good lawn with cheap seed.

A mixture of several varieties of grasses usually makes the best lawn. All grasses have an off or rest period at some time during the year, and during these rest periods very little new growth appears. These rest periods vary with different grasses, and by seeding a mixture the lawn always looks thrifty and fresh.

Buy the best seed you can afford, as the cost of seed is a minor item compared to the rest of the expense connected with making a lawn.

Our lawn mixtures are made up of seed of the highest purity and germination that we can buy, or we can furnish you with the straight varieties and you can make your own mixture.

BLUEBENT LAWN MIXTURE

A mixture of fine-leaved turf grasses containing a large percentage of Creeping Bent and Chewing Fescue. Both these grasses spread by means of underground root stalks and will eventually exclude other grasses. A Bluebent lawn is a permanent investment.

1 lb. 75c; 5 lbs. $3.00, postpaid.

LEWIS-CLARK MIXED LAWN SEED. Our Mixed Lawn Grass Seed is made up of only the fine leaved and long lived grasses which will produce a beautiful, velvety-carpet-like lawn that will last for years. Enough White Clover is used to make a quick showing and act as a nurse crop for the grasses while they are becoming established. Price: Lb. 55c; 5 lbs. $2.59, postpaid.

CREeping BENT. For those desiring the finest lawn possible, we recommend Creeping Bent Grass seeded straight. This grass grows rapidly, is of fine texture and spreading habit, and makes a strong, enduring sod. Price: Lb. $1.15, postpaid.

CHEWING FESCUE. A low-growing, fine-leaved grass which forms a close turf that prevents ingress of weeds. Thrives in all kinds of soil, even the lightest and dryest. Exncelled for lawns and golf courses. Price: Lb. 75c; 10 lbs. $7.00, postpaid.

SHADY LAWN MIXTURE. We also have a mixture for seeding in shady places. This is a combination of the most successful of fine leaf grasses that do especially well in shade. It is carefully prepared and a mixture of expensive imported grasses. Price: Lb. 85c, postpaid.

KENTUCKY BLUE GRASS. The most important grass for lawn making and is the base of our Lewis-Clark mixed lawn seed. It is the first grass to start in the spring and remains green until late winter. Is very hardy and is uninjured by cold or heat.

Lewis-Clark—Price: Lb. 40c; 10 lbs. $3.50, postpaid.

WHITE CLOVER. White Clover is especially valuable when mixed with other grasses and adds greatly to the appearance of the lawn.

Lewis-Clark—Price: Lb. 55c; 10 lbs. $5.00, postpaid.

Fancy—Price: Lb. 45c; 10 lbs. $4.00, postpaid.
